

DIUCAPS™ CAPSULES

L-Phenylalanine

Natural Appetite Control

Pharmaceutical Grade L-Phenylalanine

L-Phenylalanine is an essential amino acid that can inhibit appetite by causing a release of cholecystokinin (CCK), which has been associated with an increase in satiety resulting in lower caloric intake. L-Phenylalanine also increases production of the neurotransmitter norepinephrine (NE). Increased levels of NE can enhance fat loss by activating hormone-sensitive lipase, causing rapid breakdown of triglycerides and mobilizing fatty acids. Unlike appetite suppressant drugs utilizing controlled stimulants to reduce appetite, L-Phenylalanine has no undesirable side effects.*

- ✓ All Natural, Safe, and Effective
- ✓ Non-Addicting
- ✓ Non-Stimulant, Non-Controlled
- ✓ Can Be Used With Phentermine
- ✓ Does Not Deplete Norepinephrine

Each capsule contains:

L-Phenylalanine	300 mg
Vitamin C	100 mg
Vitamin B6	25 mg
Pantothenic Acid (B5)	50 mcg

Pharmaceutical Grade and Therapeutically Dosed

L-Phenylalanine: Turns into a neurotransmitter in the brain. These neurotransmitters provide feelings of joy, ambition and alertness, and has been shown to inhibit appetite.

Vitamin C and B6: Catalysts required for the conversion of phenylalanine to NE by the brain; maintains the protein collagen and gives strength to blood vessels.

Vitamin B6 (Pyridoxine): Contributes to the formula as a natural diuretic and mood stabilizer. It also helps to metabolize fats and carbohydrates. B6 helps maintain the balance of sodium and potassium which regulates body fluids.

Vitamin B5 (Pantothenic Acid): The essential part of coenzyme A, which is required for cellular metabolism. Releases energy from carbohydrates, fats and proteins. As a coenzyme, B5 helps in the utilization of other vitamins.

DIUCAPS™ may help to:

- Inhibit Appetite*
- Regulate Mood*
- Curb Cravings and Head Hunger*
- Control Binge and Night Time Eating*
- Enhance Mental Focus*

Diucaps™, (L-Phenylalanine) is an amino acid similar in compound to serotonin enhancing controlled drugs, such as Phentermine. Diucaps™ enhance the effects of these controlled substances, and assists in the easy transition from their use in weight control. Diucaps™ will provide effective, mood, binge eating and "head hunger" control without harmful side effects*.

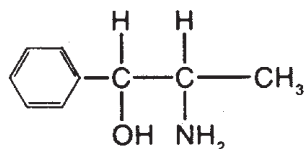

APPETITE REDUCING AGENTS

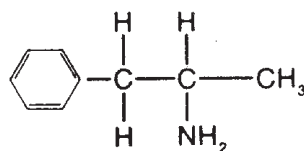

Phenylalanine, an amino acid which is converted in the brain to NE (norepinephrine), a neurotransmitter that controls hunger.

The following are similar "Look-alike" compounds found in diet pills.

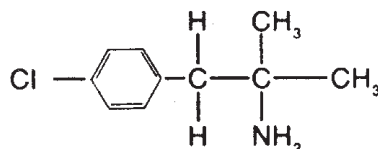

PHENYLPROPOANOLAMINE

AMPHETAMINE

CHLORPHENTERAMINE

Safe & effective, Diucaps™ requires NO controlled record keeping
